

# ISIS Vision

v1.00.0025 April 2010

## **Enhancement to Materia Medica Display**

This version contains an improvement to the display of materia medicas.

Now, when the MM Preference is set to 'Page' view, borders will appear around each page and the text as supplied will be displayed clearly without the need to scroll.

Should you need to make the text font size bigger and you make the text too large to be displayed in the screen display area then use the FULL button supplied on the bottom of the screen.

## **Complete Repertory 2010**

This version of ISIS contains all the files for CR2010 English and German (these are chargeable books)

## **New German Language Books**

This release provides the following books/packs for German language users (these are chargeable options):

Bonninghausen Pack

Siedeneder

Allen, Boericke, Kent and Farrington from Narayana Publishers
